

PROFESSIONAL DEVELOPMENT

The Ron Clark Academy has been a trailblazer in the education space for the past thirteen years with its widely sought-after professional development training (RCA EXP) for educators. Approximately **80,000 educators** from around the world have visited our school for RCA EXP, and over **200,000 educators** attended our most recent online professional development opportunities.

In order to support the continued professional development needs of educators during this period of transition and uncertainty, we are now providing more in-depth and customized virtual PD for schools and districts.

Our **professional development** offerings range from stand-alone events to ongoing, yearlong initiatives, and we have a wide-range of workshops available, including (but not limited to) the following topics.

RCA | EXP ONLINE

Customized Professional Development

WORKSHOP OFFERINGS – District and/or Schoolwide Level

The RCA Experience:

Implementing engaging strategies, improved relationships, and excitement in a way that leads to academic success

Leadership and Supervision:
